Forward Looking Statements

This presentation contains forward-looking statements within the meaning of the federal securities laws. Statements regarding future events or developments, our future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future are forward-looking statements within the meaning of these laws. These forward-looking statements are subject to a number of risks and uncertainties, some of which are outlined below. As a result, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on our results of operations or financial condition. Such risks, uncertainties and other factors include, among other things: the risk that we will not achieve the strategic benefits of the merger (the "Eclipsys Merger") with Eclipsys Corporation ("Eclipsys"); the possibility that the expected synergies and cost savings of the Eclipsys Merger will not be realized, or will not be realized within the expected time period; the risk that our business will not be integrated successfully with the business of Eclipsys; disruption from the Eclipsys Merger and related transactions making it more difficult to maintain business relationships with customers, partners and others; unexpected requirements to achieve interoperability certification pursuant to the Health Information Technology for Economic and Clinical Health Act, with resulting increases in development and other costs for us; the volume and timing of systems sales and installations, the length of sales cycles and the installation process and the possibility that our products will not achieve or sustain market acceptance; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; competitive pressures including product offerings, pricing and promotional activities; errors or similar problems in our software products; the outcome of any legal proceeding that has been or may be instituted against us and others; compliance obligations under existing laws, regulations and industry initiatives and future changes in laws or regulations in the healthcare industry, including possible regulation of our software by the U.S. Food and Drug Administration; the possibility of product-related liabilities; our ability to attract and retain qualified personnel; the implementation and speed of acceptance of the electronic record provisions of the American Recovery and Reinvestment Act of 2009, as well as elements of the Patient Protection and Affordable Care Act (aka health reform) which pertains to health IT adoption; maintaining our intellectual property rights and litigation involving intellectual property rights; legislative, regulatory and economic developments; risks related to third-party suppliers and our ability to obtain, use or successfully integrate third-party licensed technology and breach of our security by third parties. See our Annual Report on Form 10-K for the transition period ended December 31, 2010 and other public filings with the SEC for a further discussion of these and other risks and uncertainties applicable to our business. The statements herein speak only as of their date and we undertake no duty to update any forward-looking statement whether as a result of new information, future events or changes in expectations.

To be the most trusted provider of innovative solutions that empower all stakeholders across the healthcare continuum to deliver world-class outcomes.

Footnotes Regarding Financial Guidance

Financial guidance was last provided by the company in a press release on February 15, 2011. This presentation does not subsequently update or reaffirm Allscripts financial guidance.

Allscripts non-GAAP guidance for calendar 2011 assumes the following adjustments to approximately \$1,418.0 million in GAAP revenue: approximately \$21.0 million, pre-tax in deferred revenue adjustments. Non-GAAP guidance for calendar 2011 assumes the following adjustments to GAAP operating and net income: approximately \$70.0 million of acquisition-related amortization; approximately \$40.0 million in stock-based compensation expense; approximately \$21.0 million in deferred revenue adjustments; all on a pre-tax basis. Allscripts 2011 non-GAAP net income and diluted earnings per share guidance assumes a 38.0%-39.5% tax rate.

Explanation of Non-GAAP Financial Measures

Allscripts reports its financial results in accordance with generally accepted accounting principles, or GAAP. To supplement this information, Allscripts presents in this press release total non-GAAP revenue, gross profit, operating income and net income, including non-GAAP net income on a per share basis, which are non-GAAP financial measures under Section 101 of Regulation G under the Securities Exchange Act of 1934, as amended. Total non-GAAP revenue consists of GAAP revenue as reported and Eclipsys revenue for periods prior to the August 24, 2010 consummation of the 2010 Merger and adds back the acquisition related deferred revenue adjustment booked for GAAP purposes. Total non-GAAP gross profit consists of GAAP gross profit as reported and Eclipsys gross profit for periods prior to the consummation of the 2010 Merger and adds back the acquisition related deferred revenue adjustment booked for GAAP purposes. Total non-GAAP operating income consists of GAAP operating income as reported and Eclipsys operating income for periods prior to the consummation of the 2010 Merger and adds back the acquisition related deferred revenue adjustment booked for GAAP purposes and excludes acquisition-related amortization, stock-based compensation expense and transaction-related expenses. Non-GAAP net income consists of GAAP net income as reported and includes Eclipsys net income for periods prior to the consummation of the 2010 Merger, excludes acquisition-related amortization, stock-based compensation expense and transaction-related expenses, adds back the acquisition related deferred revenue adjustment, in each case net of any related tax effects.

Management also believes that non-GAAP revenue, gross profit, operating income and net income and non-GAAP net income on a per share basis provide useful supplemental information to management and investors regarding the underlying performance of the company's business operations and facilitates comparisons of the separate 2010 pre-merger results of legacy Allscripts and legacy Eclipsys to that of the company's 2010 post-merger results. Acquisition accounting adjustments made in accordance with GAAP can make it difficult to make meaningful comparisons of the underlying operations of the business without considering the non-GAAP adjustments that we have provided and discussed herein. Management also uses this information internally for forecasting and budgeting as it believes that the measure is indicative of the company's core operating results. In addition, the company uses Non-GAAP net income to measure achievement under the company's cash incentive compensation plans. Note, however, that non-GAAP revenue, gross profit and net income and non-GAAP net income on a per share basis are performance measures only, and they do not provide any measure of the company's cash flow or liquidity. Non-GAAP financial measures are not in accordance with, or an alternative for, measures of financial performance prepared in accordance with GAAP and may be different from non-GAAP measures used by other companies. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with Allscripts results of operations as determined in accordance with GAAP. Investors and potential investors are encouraged to review the reconciliation of non-GAAP financial measures with GAAP financial measures contained within the attached condensed consolidated financial statements.
